A classic. **LBX & UNCUT VG+**

**FALL OF THE HOUSE OF USHER:** Spanish w/o subs. P.

**DEVIL HUNTER:** A glamorous actress (yeah, right) is abducted and taken to the jungle by 2 really dumb guys. Some natives wearing rolexes jump around and dance all silly, and a bug-eyed horny zombie shows up. Okay... VG

**THE SADIST OF NOTRE DAME:** Franco plays a priest with a penchant for murdering hookers. An angry Jack the ripper sort. He makes confessions to another guy in his monastery, who can't turn him in under Catholic rules. F.

**SUCUBUS:** S&M beatnik-Goth erotica. Really an indescribable film, but unlike Franco's camp siccage and very artsy. Recommended. G

**THE CURSE OF FRANKENSTEIN:** (aka) "The Erotic Rites of Frankenstein". A bird woman created by the evil Cagliostro breaks into the lab of Dr. Frankenstein, killing both him and his assistant. Abducting the monster & the Dr's daughter, she takes them back to Cagliostro for a ritual mating. Cagliostro also uses the monster to abduct women, from which he plans to assimilate portions into a new "perfect" woman. It's all a very sleazy mess. VG

## Jess Franco

**The Demons**-English language print of "The Sex Demons". A twisted excursion into softcore sex, and inquisition torture. VG

**The Awful Dr. Orloff**-Actually a sharply relatively intelligent film. Franco's first, later remade as "Faceless". Howard Vernon stars as a mad scientist who with his bug-eyed zombie slave, kidnaps young girls so that he may attempt to transplant their faces onto his disfigured daughter. In glorious black & white. VG+

**Angel of Death**-This must be seen to be believed. Very timid for a Franco film, no gore, no sex... Tons of bullet wounds though, and Howard Vernon plays a nazi mad scientist who is attempting to create the perfect race by mixing human and monkey DNA. Possibly one of the stupidest films ever made. Loads of laughs! VG+

**A Virgin Among the Living Dead**-Director's cut of the film that was made into a mess of rough footage in the U.S. release. Uncut in Spanish with English subtitles. VG+

**Sadomania**-Franco churns out another epic of dominatrix wardens, women in prison camps softcore sex & cruelty. German language w/o subs. G-

**Love Letters of a Portuguese Nun**-Softcore sex cash in on Ken Russell's "The Devil's". One of Franco's more memorable efforts. VG

**Baron Blood**(aka)The Torture Chamber of Baron Blood-Uncut, letterbox English language print of this classic from Italian maestro Mario Bava. VG

**Orgy of the Vampires**-Here's an oddball for you fans of letterbox obscurities. Definitely something you won't find in most collections.  F

## Terror Worldwide!

**Serenata Macabre**-One of Karloff's last features. Produced in Mexico on a very limited budget. In color and English. Title translates: Macabre Serenade. G

**Revenge of the Zombies**-Part of the Shaw brothers "Black Magic" trilogy. Allegedly the second in the series. About an evil sorcerer who enslaves zombies by means of steel spikes through their craniums, which serve as both a re-agent and a psychic antennae, allowing him complete control of the actions of the corpses. Of course, the evil bidding of lady cadavers is to seduce influential people for him. When the spikes are removed, the bodies fall to decay. Curses make people erupt centipedes... Very twisted. Though features of this kind are common in Hong Kong, English language prints such as this are very rare. VG+

**Slaughter of the Vampires**-A classy production for a Mexican made film. Nice B&W photography and a rational story, with absolutely no wrestling involved! G+
